INFORMATION DISCLOSURE STATEMENT

In compliance with the Applicant's duty of disclosure under 37 CFR §1.56, Applicant brings the attached document or documents cited on the attached forms PTO/SB/08A and PTO/SB/08B to the attention of the U.S. Patent and Trademark Office in accordance with the provisions of 37 CFR §1.97-98.

Additionally, Applicant notes that several international and foreign references are submitted that are not in English. Applicant submits in conjunction with each such reference a full translation into English of the reference where Applicant has such translation, and Applicant accordingly checks the appropriate box on Form PTO/SB/08A. Applicant further submits in conjunction with each such reference a translation of only the abstract of the reference into English where Applicant only has such translation, and Applicant also checks the appropriate box on Form PTO/SB/08A. In this scenario, the word "Abstract" is parenthetically found after the reference number to indicate that only the translation of the abstract into English is provided and not a full translation.

Applicant submits that each international and foreign reference that is not translated is submitted for what is disclosed in the drawings and figures thereof.

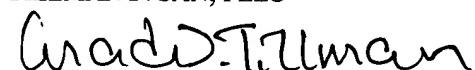

Applicant submits that each international and foreign reference for which a translation is provided is submitted for what is disclosed not only in the drawings and figures thereof, but also for what is disclosed in such translation.

Applicant draws particular attention to the following references as being of particular interest to Applicant:

Nothing herein—including the submission of the documents themselves, whether in this or any other filing—constitutes an admission by Applicant that any of the documents is prior art with respect to the present invention, or a waiver of any rights of Applicant. Indeed, while each citation includes a date, it should be understood that, whether expressly stated or not, the date specified in the citation is a date as alleged by the document or otherwise, and Applicant neither admits nor denies the correctness of the specified date at this time. Moreover, with regard to non-patent documents, Applicant neither admits nor denies that each document submitted is, in fact, a “publication” within the meaning of 35 U.S.C. §102.
